Educational Outreach Programs

The Outreach Education Programs of the Caerleon Centre for Interactive History are presented by "A Knight's Tour", an organization with over 20 years of experience bringing history to life for schools, businesses and community groups across the Pacific Northwest. The educators & artisans of "A Knight's Tour" bring an immediate and hands-on experience directly to you in the easy convenience of your own classroom or presentation space.

AKT presents programs on:

- ▣ Ancient Greece
- ▣ The Middle Ages
- ▣ Shakespearean England
- ▣ Colonial America

Relevant, Interactive Presentations

All AKT programs are presented by instructors dressed in period costumes and begin with a short verbal introduction to the era. A special effort is made to demonstrate direct connections between history and the students' modern experiences. The programs culminate with hands-on activities that allow the students to experience, manipulate, and recreate elements of history using the props demonstrated and the knowledge shared during their class, camp or workshop.
